

New Way to Receive Alerts!

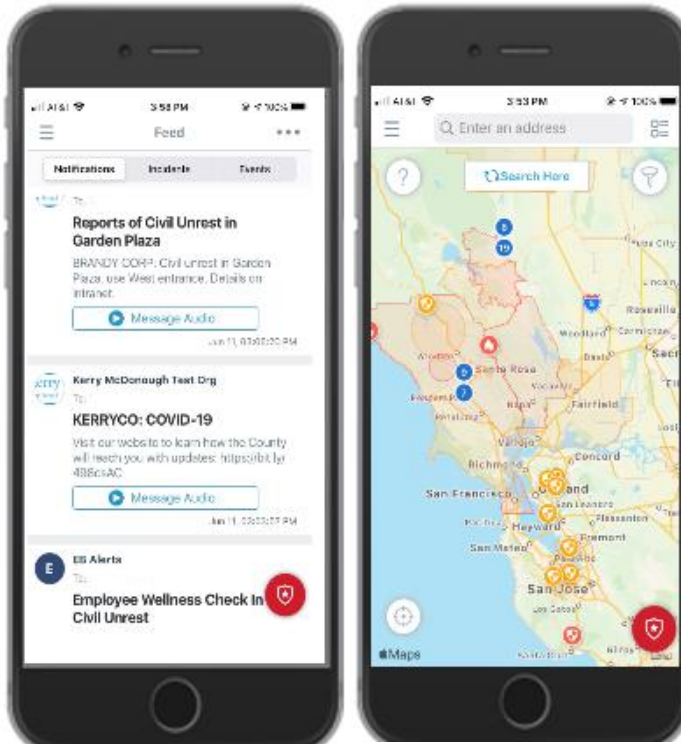

Aim your camera phone at this code for a video overview of How to Download the Everbridge Mobile App

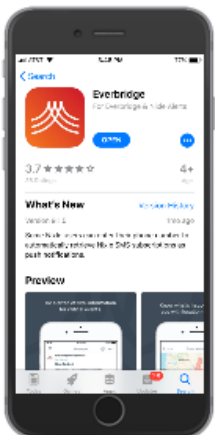

By downloading the Everbridge Mobile App, you can:

- + Quickly receive updates from [Organization Name] about [active shooter, fire, severe weather, civil unrest, explosion, natural disaster, or terrorist attack] to help protect your safety and direct you to specific actions.
- + Receive public safety notifications from public safety agencies using Everbridge while traveling.

Receive messages from [Organization Name] quickly. Messages may include images, custom audio recordings, and easy-to-click links to view more information on a new website.

View alerts from public organizations across the world, and receive an alert if using the Everbridge Mobile App and traveling through an impacted area

Download Everbridge from the Google Play Marketplace or iOS App Store

- + Allow Everbridge to send Push Notifications
- + Select "Find an organization or subscription"
- + Search [Mobile App Key Phrase]
- + Select [Organization Name]
- + Log in with your Everbridge username and password. If you don't have credentials, create them now.
